CAREER SUMMARY:

Motivated and detail-oriented Full Stack Developer with hands-on experience in developing secure, scalable, and data-driven applications using React.js, Spring Boot, .NET, and SQL. Skilled in building modern user interfaces, integrating RESTful APIs, and implementing role-based access control. Currently building an AI-powered POS system utilizing OpenAI for intelligent business solutions. Demonstrates strong problem-solving abilities through consistent practice on LeetCode and practical project experience across enterprise-grade systems.

WORK EXPERIENCE:

Software Developer Intern

Sathish System Private Limited, Chennai | Sep 2023 – May 2024

- Developed an Exam Management System using Laravel, PHP, HTML, and CSS.
- Built modules for question setting, student registration, and result generation.
- Improved user experience by designing responsive layouts and interactive forms.
- Gained hands-on experience with MVC architecture and MySQL database design.

Software Developer

Kassapos Software Solutions Pvt. Ltd., Chennai – Sep 2024 to Present

- Developed and deployed 5+ enterprise-level modules for internal ERP using ASP.NET MVC and SQL Server, improving operational speed by 40%
- Refactored legacy data access logic using Dapper, reducing average query execution time by 35%
- Collaborated in an Agile team of 6 to deliver two large-scale product updates on time and with 0 post-release bugs reported in UAT
- Created reusable service-oriented components, reducing development time on similar features by ~25%
- Implemented AJAX-driven UI components to improve user interactivity, resulting in a 30% faster user experience during peak load hours

RELEVANT PROJECTS:

AI-Based POS System (In Progress)

Jan 2025 – Present

- Building a smart POS app with React.js frontend and Spring Boot backend.
- Integrated OpenAI API for intelligent product suggestions and smart billing.
- GitHub Links: [Frontend](#) | [Backend](#)
- Tech Stack: React.js, Spring Boot, MySQL, JWT, REST APIs

CRM System for Logistics Operations – Malaysia-Based Logistics Company

.NET, SQL Server, Dapper, SOA, SAP Crystal Reports

- Engineered a custom CRM solution for a mid-sized logistics firm operating across Southeast Asia, managing over 2,000+ customer records and 500+ shipments monthly
- Automated workflows including quotation, shipping, import/export documentation, appointment scheduling, and booking confirmation, reducing manual processing by ~50%
- Designed and deployed modular SOA components to support rapid expansion and integration across departments
- Integrated CRM with third-party accounting software, improving financial accuracy and reducing monthly reconciliation time by 60%
- Improved database query performance by 40% using optimized indexing and stored procedures
- Delivered responsive and user-friendly UI components using ASP.NET MVC, AJAX, and jQuery, improving staff adoption and usability

EDUCATION:

Anna University Regional Campus, Tirunelveli

B.E – Computer Science and Engineering Aug 2019 – May 2023 | GPA: 7.93/10

SKILLS:

- Languages: C#, JavaScript, Java, SQL, Python
- Frontend: React.js, HTML5, CSS3, jQuery, Angular (Basics)
- Backend: ASP.NET MVC, Spring Boot, REST APIs, Microservices
- Databases: SQL Server, MySQL, Dapper, Entity Framework
- Tools: Git, Postman, SAP Crystal Reports, IntelliJ, VS Code
- Concepts: System Design, Data Structures, Algorithms, OOP
- Soft Skills: Communication, Teamwork, Time Management, Critical Thinking
- Practices: Secure Code, Agile, Test-Driven Development, Role-Based Access

LANGUAGES:

- Tamil – Native | English – Professional | Japanese – Basic
